11. [REDACTED] LIAISON Jim Fellenbaum, Senate Appropriations Committee staff, called with regard to the request for approval of his Committee to proceed with rental of office space without going through the Public Works Subcommittee process. Fellenbaum was basically unhappy with the request because he says protocol requires him to write to the Public Works Subcommittee to get their approval, and this is a difficult process at best. He has asked for further justification as to why we are making the request at this time instead of earlier, why we believe going the GSA route will take so long, and what the impact will be if his Committee does not approve our request. I am in contact with the Real Estate Branch of the Office of Logistics.

15. [REDACTED] LIAISON Received a call from Hal Ford, Senate Select Committee on Intelligence staff, who said he would like to see DDO employee [REDACTED] who he believed had just returned from an assignment in [REDACTED]. Ford said this would be a personal call not business. Ford also said he was available to review any China counterintelligence reports that were ready for him. I subsequently informed him it would be next week before I had the reports.
